Flying Theater available with 2D & 3D wide screen, or VR

EMOTION
MEDIA FACTORY
composing magic moments

Emotion Board is a Flying theatre, fully suspended (hanging from steel cables) and moves in 6 Degrees of Freedom.
Passengers are standing upright, leaning against a “Motion Grid”. High quality special effects take the experience to the next level of immersion.
The system is open for content display in 2D or 3D projection and VR - all work impressive with the simulator!
